

For best results print cards (pages 2-7) on at least 80 pound card stock. Use a heavier card stock if you can get it.

The rules (in a second document available at <http://www.wizardbeardgames.com/hydras/rules.pdf>) can be printed on normal paper. Print the rules double sided if you can.

Printed pages (rules or cards) should not be set to shrink to fit. The rules and cards use a quarter inch margin.

For best results cut cards using a guillotine or rotary cutter. If a cutter isn't available scissors will work fine but the cards won't match up as nice.
